

The New Forest Hospital Radio Studio

In December 2006 we finally moved into our new custom built studio after raising over £35,000 for new state of the art equipment. This sum included £6000 donated by the Hospital League of Friends. We use the MYRIAD software system in the studio which already holds over 5000 tracks. The new studio is named in memory of Basil Trask, one of our founder members who passed away before the new studio was completed, but without Basil's help and effort New Forest Hospital Radio would not be what it is today. Our equipment is as follows:

Broadcast Studio

Sonifex S2 Solutions split mixer
Denon DNC6 35 CD player x 2
Tascam MD350 FS MD deck x 2
Marantz PMD570 Compact Flash recorder
Microboards Copy Writer Live CWL 6200 dual CD recorder
Technics SL1210 turntable
Pure DRX701ES DAB/FM tuner
Rode NT2000 mic
Beyer M69 guest mic x 2
Tannoy Reveal monitor speakers and Sonifex furniture.
Presenters PC
Myriad PC

Production Studio
